

## Extinction

## Brutality

Entering a new world  
Of hate and deception  
Useless massacres cut and dissected  
There is no law all are defenseless  
Where to go now  
Lands filled with sickness  
Blinding brightness swealtering heat  
Eye of the night safe til dawn  
Infertile earth ruins from humans  
Strong will survive  
Weak will die suffering  
Must take cover light is near  
Rations depleted  
Hard to stay alive  
Night grows shorter  
Dread of the future  
Difficult to breathe  
Elements unleashing  
Drawing closer to the sun  
World is crumbling destiny of man  
Fate will fall fury on planet  
Civilization swallowed no life  
As we know it
