

## Waiting To Be Devoured

Brutality

Twisting nature  
Burning sacred land  
Deforestation  
Life beyond our means  
Epidemic creation  
One foot in the grave  
Famine and sickness  
Strikes back at mankind  
Living organisms  
Unable to quarantine  
Catastrophic outbreaks  
Airborn virus  
Biological tainted blood  
Instrument of redemption  
Reaction to the anti-body  
Respiratory seizure  
Hormonal side effects  
A world in pain  
Violation  
Existence severed  
Civilization  
Born of ancient times  
Corpses filed high  
Single cell  
Cross mutation  
Corrupt planetary treason
