Do To You

Bryan Adams

If ya love somebody – if ya need someone
If ya want somebody – ya – let me be the one
(I wanna) do to you what you do to me
Do to you what you do to me
Let me treat ya right – ya – show I care
Cuz every night – I'll take ya there
Do to you what you do to me
Do to you what you do to me
Don't want just anything – I just want something real
Let down your defenses baby – show me what you feel
Do to you what you do to me
Do to you what you do to me
Should I stay – should I go
There ain't no question – I already know
(I wanna) do to you what you do to me
(help me) do to you what you do to me
Don't want just anything – I just want something real
Let down your defenses baby – show me what you feel
