

Flying

Bryan Adams

If you ever feel like your gonna fall - oh I'll be there
And If you ever feel down or feel small - oh don't despair
And If you ever feel lost or feel alone - babe come on home
Lets just make love - all night
Lets just hold on - so tight
Lets make it last for life - I won't let you go
Yeah we're flying
Feels just like flying
We're such a long way up - from the ground
Just you and me flying, so high and
We're never gonna come down
