

Let Him Know

Bryan Adams

1. Another day goes by
Still you wonder what happened
You'd give the world for one more try
But you're too shy to ask him
You don't want to ask him now
I know your heart will pull you through
If he means that much to you, yeah

R: You gotta let him know (Let him know, know that you love him
)

Let him know that you love him (Let him know, know that you
need him)

You gotta let him know (Let him know, know that you want him
now)

2. What can I say? It's up to you
You gotta make up your own mind
It's your life, it's up to you
Cause you didn't believe me
You still don't believe me now
You're gonna see it's all coming true
That's why I'm leaving it up to you, yeah

R: You gotta let him know...

The news is out I guess you heard
You shouldn't breathe a single word
The bottom line is nothing's going to stop you now
You gotta let him know....
