

## Let Him Know

Bryan Adams

1. Another day goes by  
Still you wonder what happened  
You'd give the world for one more try  
But you're too shy to ask him  
You don't want to ask him now  
I know your heart will pull you through  
If he means that much to you, yeah

R: You gotta let him know (Let him know, know that you love him  
)

Let him know that you love him (Let him know, know that you  
need him)

You gotta let him know (Let him know, know that you want him  
now)

2. What can I say? It's up to you  
You gotta make up your own mind  
It's your life, it's up to you  
Cause you didn't believe me  
You still don't believe me now  
You're gonna see it's all coming true  
That's why I'm leaving it up to you, yeah

R: You gotta let him know...

The news is out I guess you heard  
You shouldn't breathe a single word  
The bottom line is nothing's going to stop you now  
You gotta let him know....
