

Lonely Nights

Bryan Adams

Would you risk your reputation
I don't know
You just don't know what you're saying
Anymore

You know beggars can't be choosers
And it's fair
When we win we may be losers
I don't care... no, no, no

Oh, baby, I just can't stand another lonely night
So come over and save me
Save me from another lonely night

I hear every word your sayin'
They're all lies
But with every breath your taking
Your thinking of ways to say goodnight

Oh now, baby, I just can't stand another lonely night
So come over and save me,
Save me from another lonely night

Baby, I just can't stand another lonely night
So come over and save me,

Baby, I just can't stand another lonely night
So come over and save me,

Oh now, baby, I just can't stand another lonely night
So come over and save me,
Save me from another lonely night ...
