

# Lonely Nights

Bryan Adams

Would you risk your reputation  
I don't know  
You just don't know what you're saying  
Anymore

You know beggars can't be choosers  
And it's fair  
When we win we may be losers  
I don't care... no, no, no

Oh, baby, I just can't stand another lonely night  
So come over and save me  
Save me from another lonely night

I hear every word your sayin'  
They're all lies  
But with every breath your taking  
Your thinking of ways to say goodnight

Oh now, baby, I just can't stand another lonely night  
So come over and save me,  
Save me from another lonely night

Baby, I just can't stand another lonely night  
So come over and save me,

Baby, I just can't stand another lonely night  
So come over and save me,

Oh now, baby, I just can't stand another lonely night  
So come over and save me,  
Save me from another lonely night ...
