Well everybody's talking' bout the supermodel world

ya know I love everything they do
I check 'em out on every "pay per view"
uhhh honey - that was before I met you

you walked in 'n baby love begins
when you walk by baby - ooo my my my
when you come around my jaw hits the ground
when you shake your thing I jump out of my skin
when you cross the floor I scream out more more more
when you flash a smile - you're driving' me wild

everybody's checking' out the glossy magazines
Madonna - Diana - ya know that whole scene
the cover girls - the centerfolds and every movie star
and all those pretty ladies down the local topless bar

couldn't think of nothing' better to do
than checking' out a little wiggle or two
uhhh don't worry honey - that was all before I met you - ya

you walked in - 'n baby love begins
when you walk by - baby oh my my my
when you come around my jaw hits the ground
when you shake your thing I jump out of my skin
when you cross the floor I scream out - more baby more
when you flash a smile - your driving' me wild - ya ya ya!

couldn't think of nothing' better to do
than checking' out a little wiggle or two
uhhh don't worry honey - that was all way - way before I met you
ya know it's true - now listen

you walked in - 'n baby love begins
when you walk by - baby ooo my my my
when you come around my jaw hits the ground
