

Break Out Of Chains

Bryan Duncan

Above me gather legions who've stood the test of time
A cloud they are who witness a master's grand design
I find myself surrounded, a threat on every side
I've just begun to suffer where greater men have died
To stand and face the challenge, to quench the fiery dart
Won't find your strength in numbers
In a struggle for the heart
The prisoner of your mind
Break out of chains,
(Chains, chains, chains)
Find the lock and turn the key
(Chains, chains, chains)
Break out of chains,
To know the truth will set you free
The lure of secret vices, integrity let slide
Discreet, misplaced affection, a self-indulgent pride
Addictive taste of power, the smell of sweet success
Whatever makes you stumble will be your only test
To stand and face the challenge, to quench the fiery dart
Won't find your strength in numbers
In a struggle for the heart
The prisoner of your mind
Ooh! Break out of chains,
(Chains, chains)
Find the lock and turn the key
Break out of chains,
(Chains)
Know the truth will set you free
Break out of chains,
(Chains, chains)
One more time, now do it right
Break out of chains,
(Chains)
If I have to fight all night
Break out of chains
Whoa!
Waiting...
Break out of chains,
(Chains, chains, chains)
Find the lock and turn the key
Break out of chains,
(Chains, chains, chains)
Know the truth will set you free
Break out of chains,
(Chains, chains)
Find the lock and turn the key
Break out of chains,
(Chains)
Know the truth will set you free
Break out of chains,
(Chains, chains)
One more time, now get it right
Break out of chains,
(Chains)-acapo
