

One Touch Away

Bryan Duncan

Hey, lookin' up in heaven
I can't imagine how far it must be to there
You know all too well
I don't have to tell you about this world right here

But I do wanna tell ya
As a friend and a brother
Got a friend in Jesus
He'll love you like no other

One touch away
Two steps apart
Three little words
Can it be so hard?

After we've come so far
Now can He be so close?
He's standin' at your door
He's just one touch away from your heart

It's all out in the open, I told ya now
I'm hopin' you'll feel like I do
'Cause I can't imagine
Tryin' to make things happen, children

Without God's point of view
'Cause He wrote all the questions
And He's got all the answers
Do ya know He can help you? Is all I'm really askin'

One touch away
Two steps apart
Three little words
Can it be so hard?

Just knowin' he's so close
Don't have to run too far
He's standin' at your door
He's just one touch away from your heart

Oh, can it be, can it?
Can it be so hard?
I can't imagine where I'd be
Without him

Oh, He's one touch away
Two steps apart
Three little words
Can it be so hard?

(Just knowin' he's so close)
Don't have to run too far
He's standin' at your door
He's just one touch away

(One touch away)
(Two steps apart)

Two

(Three little words)

Three

(Just knowin' he's so close)

After we've come so far

He's standin' at your door

He's just one touch away, hey, hey
