

# Take Heart

Bryan Duncan

There's a place  
Only a heart can go  
And without any word  
Let your feelings flow  
There's a voice  
Only a soul can hear  
In a cleansing rain  
Falling soft and clear  
Come to your troubled waters edge  
Step in and you'll find me there  
You'll find me there  
Take heart  
And I'll take your hand,  
Be still and be strong,  
We will reach the promise land  
Take heart  
God knows where we are  
He won't let us down  
He's brought us too far  
Take heart  
There's a wound  
Jesus alone can touch  
But it's so hard to face  
'Cause it hurts so much  
There's a pain  
Only His cross can bear  
And our only hope  
Is to leave it there  
Run to your troubled waters edge  
Step in and you'll find me there  
You'll find me there  
Take heart,  
And I'll take your hand  
Be still and be strong  
We will reach the promise land  
Take heart  
God knows where we are  
He won't let us down  
He's brought us too far  
All around you His angels wait  
And though the waves are cold  
His wings are great  
So trust, He's not gonna let you drown  
He's gonna carry us across  
To higher ground  
Come to your troubled waters edge  
And you'll have your miracle  
Take heart  
And I'll take your hand  
Be still and be strong,  
We will reach the promise land  
Take heart  
God knows where we are  
He won't let us down  
He's brought us too far  
So take heart  
Take heart

(And I'll take your hand)  
Be still and be strong  
(We will reach the promise land)  
Take heart  
(God knows where you are)  
Oh, He won't let you down  
(He's brought us too far)  
So
