

# You Can Rely On Me

Bryan Duncan

You tend to lean on your reputation  
To get you out of a mess, mmm  
You lose your place in some new revelation  
Then come to me to confess, no!  
Woulda, shoulda, coulda but you never learn  
To keep me in the center of things  
I'll be there for you just show me some faith in return  
You're quick to say you can do it your way  
But now look who keeps gettin' burned  
You can rely on me  
To be your friend

I'm ready to walk you through the dark because I'm a count-on friend  
I give you my word we won't be apart 'til we see the light at the other end!  
Woulda, shoulda, coulda but you never learn  
(Never learn)  
To keep me in the center of things, mmm  
I'll be there for you just show me some faith in return  
You're quick to say you can do it your way  
But now look who keeps gettin' burned
