

# Alphaville

Bryan Ferry

Nobody knows you're here  
Deep undercover  
You seem a bit afraid  
Why do you suffer?

Another night  
A night in Alphaville

This time is made for love  
Let's play together  
In every bar and club  
Now and forever

Another night  
A night in Alphaville

You say you won't  
But girl, I know you will  
[Incomprehensible]  
[Incomprehensible]

I'm hungry for your love  
You scream and whisper  
A thousand alibis  
You point the finger

Another night  
A night in Alphaville

Don't try to read my mind  
A broken circuit  
And all my hands are tied  
Nobody's perfect

Another night  
A night in Alphaville

You say you won't  
But girl, I know you will  
The world goes 'round  
But here it stays the same  
In second class  
Nobody knows your name

Another night  
A night in Alphaville

You say you won't  
But girl, I know you will  
I wanna live  
But life ain't worth a dime  
Lasting and light  
Reflected in your eyes

Another night  
A night in Alphaville
