

## Fall In Love

Bubbles

Oh Baby, oh Baby, oh yeah.

Didn't think much about it,  
The first time you passed me by.  
Didn't think you'd turn me upside down,  
When you looked into my eyes.  
Cause I know what I'm feeling,  
I can't get you out of my head.  
Nothing's gonna stop us know.  
Nothing's gonna stop us now.

I want to fall in love. I want to understand.  
I wanna hold you tight. I wanna stay the night.  
So if you hold my hand. We're gonna make it.  
I know we're strong enough, strong enough  
To fall in love.

People say that we're too young,  
Too young to know the meaning of  
But I can't eat and I can't sleep so  
I guess this must be love.  
Cause I know what I'm feeling,  
I can't get you out of my head.  
Nothing's gonna stop us know.  
Nothing's gonna stop us now.

Every night I lie in my bed and think  
Of you and all the things we do together.  
I've never really been in love before.  
People say that maybe I'm too young.  
And yet, I'm not too young to know  
What my heart is feeling.

Nothing's gonna stop us know.  
Nothing's gonna stop us now.
