

Happy Girl

Bubbles

Woke up this morning, the sky was blue
today is the day, I'm going to you
I'm so excited it's been so long
(been) countin' the minutes, since you've been gone

Here we go now, Here we go now
Here's a message to you

I'm a happy girl with a happy,
happy smile, I can be your friend if you
stay'n play a while. Happy, happy girl
with a happy, happy smile, I'll give you
all my world, and make it last a while

Oh I'm gonna make you happy
oh what can we do
Oh I'm gonna make you happy
oh just me and you

So can you imagine, the way I geel
look at me jumping, it's so unreal
When we're together, the whole world smiles
this is forever, the rest of our lives

Here we go now, Here we go now
Here's a message to you

I'm a happy, happy girl with a happy,
happy smile, I can be your friend if you
stay'n play a while, Happy, happy girl
with a happy, happy smile, I'll give you
all my world, and make it last a while

Oh come on I'll make you happy
oh what can we do
Oh come on I'll make you happy
oh just me and you

When I see you looking at me
I feel so happy, just you and me
