

Hit The Floor

Bubbles

Tonight we set the groove
Trying to make you move
There ain't no substitute
For what we wanna do
Come on and feel the vibe
We try to run and hide
Is this reality or just a fantasy?
Why is it that we keep on losing our mind?
Every time we hear the DJ play that song (play that song)
So we can dance until the morning light
Let the music keep on playing over again
We're gonna hit the floor
I know that we got it
We're gonna hit the floor
Ain't no doubt about it
We're gonna hit the floor
Turn it up it started
Strong enough to make it
Nothing's gonna break it
We're gonna hit the floor
It's time to rule the game
We'll never be the same
This is a faith
This is our final destiny
No one can stop us now
Just let I'll show you how
We'll keep on moving to in eternally
Why is it that we keep on losing our mind?
Every time we hear the DJ play that song (play that song)
So we can dance until the morning light
Let the music keep on playing over again
We're gonna hit the floor
I know that we got it
We're gonna hit the floor
Ain't no doubt about it
We're gonna hit the floor
Turn it up it started
Strong enough to make it
Nothing's gonna break it
We're gonna hit the floor
We're gonna hit, we're gonna hit
We're gonna hit, we're gonna hit the floor
We're gonna hit, we're gonna hit
We're gonna hit, we're gonna hit the floor
Hit the floor (you gonna be my baby)
Hit the floor
We're gonna hit the floor
Hit the floor (dance the night away)
Hit the floor
We're gonna hit the floor
I know that we got it
We're gonna hit the floor
Ain't no doubt about it
We're gonna hit the floor
Turn it up it started
Strong enough to make it
Nothing's gonna break it

We're gonna hit the floor
