

All The Dreamin' They Could Stand

Buck Owens

Things like other people have not just dreams that's all gone bad
She's had all the dreamin' she could stand
Chased our dreams endlessly through it all she stood by me
More than that Lord she was such a friend
Dreamin's all I had to give she needed more to live
She's had all the dreamin' she could stand
She's had all the dreamin' she could stand
She want something real she can hold in her hand
Things like other people have (not just dreams that's all gone bad)
She's had all the dreamin' she could stand
(He was always good to me good as anyone could be I was always
part of all his plans
Each time his world would crash and burn he never had one place
to turn
He's had all the dreamin' he could stand
She's had all the dreamin'...
Things like other people have...
