I tried to get everybody somethin' that they wanted $% \left(1\right) =\left(1\right) \left(1\right) \left$

But I didn't know what to get you

I read the kids letters to Santa Claus I read 'em over one by o ne

And I surely like to get my hands on the fella that said Christ mas shoppin's fun

I got ten toy soldiers...

Well I must've walked a hundred miles or more I went to every s tore in town

My feet started swellin' and my head started achin'

And I couldn't find a place to sit down

But to tell you the truth well I really don't mind it I could e ven walk another mile

Cause on Christmas mornin' when they open up the presents Well it's worth it just to see them smile I got ten toy soldiers...
