

Hello Happiness Goodbye Loneliness

Buck Owens

Hello happiness, goodbye loneliness
Farewell heartaches and so long strife
No more sadness, only gladness
My little darling's coming home tonight

Well, now she called me today
Said, she's on her way that she'd be in on the 6 0 10
Said, we had a date, warned me, "Don't be late"
Promised she never ever leave again

Hello happiness, goodbye loneliness
Farewell heartaches and so long strife
No more sadness, only gladness
My little darling's coming home tonight

Well, we'll take in the town to turn it upside down
New Year is easy comin' early this year
Bad times are a gonna go and the good times are a gonna roll
My little darling's gonna soon be here

Hello happiness, goodbye loneliness
Farewell heartaches and so long strife
No more sadness, only gladness
My little darling's coming home tonight
My little darling's coming home tonight
