

I've Never Had A Dream Come True Before

Buck Owens

Oh, I've never had a dream come true before

Please forgive me for staring in your eyes
You're so wonderful, it's hard to realize
That true happiness has walked right through my door
'Cause I've never had a dream come true before

Never had a dream so real and true
Never thought I'd find someone like you
I can't believe my heartache won't be heartache anymore
'Cause I've never had a dream come true before

When I met you I thought of days gone by
And of those that I have loved who said, "Goodbye"
And I thought that you would be the same for sure
But I've never had a dream come true before

Yes, I thought that you would be the same for sure
I've never had a dream come true before
