

## If I Had You Back Again

**Buck Owens**

If I had you back again I'll tell you what I'd do  
I'd dance a little jig of joy and turn a flip or two  
My blue days would be over my long nights at an end  
My heartaches would all vanish if I had you back again

If I had you back again your sweet lips I would kiss  
There'd never be a lonely moment only happiness  
Hand in hand together we would find the rainbow's end  
I'd walk the straight and narrow if I had you back again

If I'd just one life to live I wanna be with you  
And find again the feeling of a love that's sweet and true  
I'd turn my back on everything my wild life I would end  
I'd change my ways tomorrow if I had you back again  
I'd walk the straight and narrow if I had you back again
