

If I Knew

Buck Owens

If I knew what made the world go round or made the raindrops tumble down
Then I'd know why I love you
If I knew what made the flowers bloom or made the Man up in the Moon
Then I'd know why I love you
If I knew what made the blue blue sky if I knew what made the robin fly
If I knew what made the chill of morning dew
If I knew what made the river flow if I knew what made the north wind blow
Then I'd know why I love you
[steel]
If I knew what made the blue blue sky...
Then I'd know why I love you
