

## If You Want A Love

**Buck Owens**

If you want a love that never will die a love that will always  
be by your side

If you want a heart that beats just for you

Well that's the kind that I have in mind if you want my love

If you want a kiss that will never grow cold

If you want two arms to have and to hold

A tender caress when each day is through

Well that's the kind that I have in mind if you want my love

If you want to spend your lifetime with me if you want a love t  
hrough eternity

If you want a home that's made just for you

Well that's the kind that I have in mind if you want my love
