

Let The World Keep On A Turnin'

Buck Owens

Let the world keep on a turnin' let the fire keep on a burnin'
Let our love keep on a growin' to the sky
Let our ship of love keep sailin' keep the storm clouds far away and
Hand in hand we'll walk together side by side

Please don't pay me attention to someone that they should mention
As they saw me in the arms of Mary Jane
Oh it's plain they're only jealous and their hearts are filled with malice
Their intention is to only bring us pain
Let the world keep on a turnin'...
When they try to cause us trouble we'll politely pop their bubble
By ignoring any gossip they might start
So let the north wind keep a blowin' we'll be safe cause we'll be a knowin'
That our love is safely locked inside our hearts
Let the world keep on a turnin'...
Hand in hand we'll walk together side by side
Hand in hand we'll walk together side by side
