## **My Saviour Leads The Way**

## **Buck Owens**

I have a safe and sure retreat where I'm alone with God A perfect peace and happiness where sorrow never trod Oh praise his name his holy name salvation full and free Ol' glory to the blessed lamb my Saviour leads the way My Saviour leads the way my Saviour leads the way My soul was lost in deep despair till Jesus came to me But now I'm safe thank God I'm safe because of calvary I'm following his footsteps my Saviour leads the way My burdens all seem lighter when I steal away and pray I feel his presence and I know he's with me all the way Alone with him I'll watch and wait I know it won't be long Till I shall stand before my Lord and sing a happy song My Saviour leads the way...
