

# Over And Over Again

**Buck Owens**

Over and over  
I've said that we are through  
Over and over  
I've said I'm leaving you  
But when you say I love you my heart goes in a spin  
And over and over I take you back again  
Time and time again I've said this is the end  
And told my heart forget what might have been  
No matter what I'd do I can't get over you  
I love you over and over again

Time and time again...
