Think Of Me

Buck Owens

Think of me when you're lonely Think of me when you're blue Think of me when you're far away And I'll be thinking of you

Remember all of the good times We had in days gone by Remember all of the sadness The day you said goodbye You told me you would be leavin' But you wouldn't be gone too long Now I hope and pray with each new day That you'll come a-travelin' home

Think of me when you're lonely Think of me when you're blue Think of me when you're far away And I'll be thinking of you

I watch the mailman comin' I wait by the telephone I meet the trains down at the station And I spend my nights alone But now the waitin' is over And Time has set the scene 'Cos God meant me for only you And he meant you for me

Think of me when you're lonely Think of me when you're blue Think of me when you're far away And I'll be thinking of you
