## What A Liar I Am

## **Buck Owens**

Oh you told me you had found another that I no longer fit into your plans

Don't apologize I said for it don't matter but you know what a liar I am

With a smile on my face I wished you well dear

With the happiness at last you say you've found

But if you knew how I've tossed and I've tumbled then you'd know what a liar I am

I watched you walk away with your new love

Watched my dream world tumble to the ground

I told all of our friends I'm glad it's over but they know what a liar I am With a smile on my face...

Now you know what a liar I am
