## **Within My Loving Arms**

## **Buck Owens**

Come into my loving arms and forget it run into my loving arms you won't regret it
I will be your rock and keep you safe from harm
If you will stay with me within my loving arms

The sunshine of your life just call to say goodbye it hit you like a bow from the blue

Your big plans for the future have all gone up in smoke

Lost and lonely girl what will you do

Just come into my loving arms...

If you will stay with me within my loving arms
