

# All of Me

Buckcherry

All of me  
Please take all of me  
'Cause you are all I see  
Everything to me

When you're gone, I am lost  
I wanna be forgiven, but I am not  
And if I hurt your feelings, I will stop  
So please, don't turn away from me  
And have a little faith now

'Cause baby, you were there  
You always seemed to care for me  
And this is where I belong  
I never was aware  
And suddenly it came to be

And this is what I've become  
Opened up my eyes  
And made me realize  
That you would take all of me

Please take all of me, yeah  
'Cause you are all I see  
My blue eyed ocean breeze

When it all falls apart  
I wanna live forever, don't we all?  
It's not like we don't ever get along  
So please don't turn away from me  
And have a little faith now

'Cause baby, you were there  
You always seemed to care for me  
And this is where I belong  
I never was aware  
And suddenly it came to be

And this is what I've become  
Opened up my eyes  
And made me realize  
That you would take all of me

Miss you all the time  
Underneath a stormy sky  
You take away the rain  
And leave me with a sunny day  
Stay here by your side  
And never let you go now

'Cause baby, you were there  
You always seemed to care for me  
And this is where I belong  
I never was aware  
And suddenly it came to be

And this is what I've become

You opened up my eyes  
And made me realize  
That you would take all of me

Please take all of me, yeah  
'Cause you are all I see  
Everything to me
