## Cream

## **Buckcherry**

Cream on me
You will always be
My deepest love, yeah, yeah

Cream on me You will always be My deepest love

I get an early start
I know we're far apart
My family, they need me
But daddy's never home

I call you on the phone You say you're all alone Surrender my feelings And try to make it work

Cream on me
You will always be
My deepest love, yeah, yeah

Cream on me You will always be My deepest love

All this time
I draw the line
I'm gonna see it through
Till things get better

I won't cry, I can't deny My days are coming And you know I'm ready Till things get better Till things get better

It's getting hard to change Can't get back yesterday The pictures remind me The story fills the page

I think of all the days Limelight and self-decay My suitcase gets weaker My voice sure needs a break

Cream on me You will always be My deepest love, yeah, yeah

Cream on me You will always be My deepest love

Cream on me You will always be
