

# Dead

Buckcherry

When I was a young god, I could live without the laws  
I made my mess, I could live without you all  
If I starve from breathing, I won't listen to the call  
I made my bed, I'm committed, I am strong

They keep saying my generation's dead

Dead, we are helpless, we have nothing and nothing's wrong  
We're committed, we are hungry, we are strong  
Dead, we are restless, we are broken but standing tall  
We're devoted, we are driven, we are cause

I don't think that I have suffered, I don't think I've learned at all  
I get right back up and then I take another fall  
My teachers told me something, they said that I would hit a wall  
And if I keep it up I won't live to tell us all

They keep saying my generation's dead

Dead, we are helpless, we have nothing and nothing's wrong  
We're committed, we are hungry, we are strong  
Dead, we are restless, we are broken but standing tall  
We're devoted, we are driven, we are cause

Talking down to me and our generation  
Is this what you want to be, a contradiction?

I don't think that I have suffered  
I don't think I've learned at all  
I get right back up  
And then I take another fall

Oh yeah, we are dead, I am dead  
Oh yeah, dead, my generation's dead  
Oh, oh, oh, oh

Dead, we are helpless, we have nothing and nothing's wrong  
We're committed, we are hungry, we are strong  
Dead, we are restless, we are broken but standing tall  
We're devoted, we are driven, we are cause, I am dead, oh yeah

We are dead, oh, dead  
My generation's  
Oh yeah, dead  
Suck it
