

Fall

Buckcherry

Maybe I am lost and complicated, tell me are you sick of it at
all, tied down, tore up, threw up, held up, sinking, you take m
e with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul
left with these empty feelings

Now I'll all I want is just to get you back, cause it's a long
life babe and I'll be standing here just to see you fall
Are you dealing with a bad connection, broken down from the lov
e we lost, stand out, hold up, back off, roll up, drinking, you
take me with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul
left with these empty feelings

a story about revenge
