

Fall

Buckcherry

Maybe I am lost and complicated, tell me are you sick of it at
all, tied down, tore up, threw up, held up, sinking, you take me
with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul
left with these empty feelings

Now I'll all I want is just to get you back, cause it's a long
life babe and I'll be standing here just to see you fall
Are you dealing with a bad connection, broken down from the lov
e we lost, stand out, hold up, back off, roll up, drinking, you
take me with you even though your done

Loving you gave me a heart attack, now I'm this long lost soul
left with these empty feelings

a story about revenge
