

I Want You

Buckcherry

You wanna change
But you're out there running
Scared out of your mind
You're in a cage
'Cause there's no one you can trust
You're losing time

Baby you saved me
I was lost and I just
Needed you to guide
All of the pain
Went away when I
Reached the other side

You set me free and I want you
You're what I need and I want you
You always make it better
'Cause you come through
And I want you

Am I vain
Or do I spend too much
Time here by myself
Turn the page
'Cause I can't see you with
Anybody else
I am restless
Without you here I'm
Gonna need some help

You set me free and I want you
You're what I need and I want you
You always make it better
'Cause you come through
And I want you

The things you do make me want you
When I am blue I want you
When everything's in question
You come through
And I want you

I know we've gone through changes
In and out of phases
You never gave up on me, baby
We will last forever

You set me free and I want you
You're what I need and I want you
You always make it better
'Cause you come through
And I want you

The things you do make me want you
When I am blue I want you
When everything's in question
You come through

And I want you

You set me free and I want you
You're what I need and I want you
When everything is crazy
You come through
And I want you
