

# It's a Party

Buckcherry

It's a party  
It's a party  
Oh, there's a party on the way  
Come on!

I got bad habits from you  
You wanted this, I came through  
Your Prince Charming's on the way, oh yeah  
I got something for you  
All our friends can come too  
It's gonna put a smile on your face

I want you to be celebrated

Everyone is getting up  
It's time to fill your cup  
Let the music take you on your way, yeah  
It's a party  
It's a party  
Oh, there's a party on the way

Trying to keep you satisfied  
The girls outnumber the guys  
Everyone we love is in the place (Come on!)  
They're pairing off in the rooms  
I need someone for me too  
Dirty lovin' on my face

Tonight we're gonna tear this place down

Everyone is getting up  
It's time to fill your cup  
Let the music take you on your way, yeah  
It's a party  
It's a party  
Oh, there's a party on the way

It's a party  
It's a party  
Oh, there's a party on the way  
It's a party  
It's a party  
Oh, there's a party on the way

(It's a party)  
Everyone is getting up  
It's time to fill your cup  
Let the music take you on your way, yeah  
This space is going off  
It's never gonna stop  
It's gonna last all night and through the day, yeah

Everyone is getting up  
It's time to fill your cup  
Let the music take you on your way, yeah  
This space is going off  
It's never gonna stop

It's gonna last all night and through the day, yeah
