

Place In The Sun

Buckcherry

The rain keeps falling down shelter me I'm wet, sacred heart is
burning there's a princess in my arms
I don't want to waste away tonight a starlight face a party, li
ke some time to figure out a link to your eyes and to your mind
I wanna be alone this evening too much to hide don't want the w
orld to see me, wait till I'm whole and find a place in the sun
, and never pick up the phone
My friend keeps stalling he is restless he is scared, lonely he
art is turning smell the sweetness in the air
