Hey

Moving out found some pictures of places and past times
Remember how we got through those moments of being fools
To pass the days when passion plays i loved to dance the stage
And through our fights we changed our lives and still related i
n all the truth

And im, well im still related
Yeah, im still related, and everybody, has got the groove

The night crowd pays the rent now that your playing on instrume
nts
And i don't need the car, little jon got his hands on a harp
Now were sleeping days, is the best love plays, and we face the
stage
And through our fights we changed our lives and still related i
n all the truths

And im, well im still related
Yeah, im still related, and everybody, has got the groove
And im, well im still related
Yeah, im still related, in the crowd all around you, hey

Won't you come with me, get off your ass
And leave your ego at the door
When you can always stay out late, its a different place
Were just running away to the show, to the show, to the show, y
eah

And im, well im still related
Yeah, im still related, and everybody, has got the groove
And im, well im still related
Yeah, im still related, in the crowd all around you
Still related, yeah, still realted, yeah, still related yeah
Still related
