

# One Of Those Nights

Bucks Fizz

Some nights when I'm alone  
I get up from a dream  
I light a cigarette  
I lie there in the dark  
And think why we're apart  
I just can't figure it

I'm living in the shadows  
I got nowhere to go  
Since you left I'm broken babe  
I need you, don't you know?

One of those nights  
Just one of those nights  
Silence surrounds me  
Your memory haunts me  
It's one of those nights  
It's just one of those nights  
If only I had you to love me  
On one of those nights

It's one of those nights...

I gave her everything I had  
How could she leave and just forget it?  
I know it seems I've thrown my life away on her  
I don't regret it

I'm living in the shadows  
I got nowhere to go  
Since you left I'm broken babe  
I need you, don't you know?

One of those nights  
Just one of those nights  
Silence surrounds me  
Your memory haunts me  
It's one of those nights  
It's just one of those nights  
If only I had you to love me  
On one of those nights

(It's one of those nights)

I'm living in the shadows  
I got nowhere to go  
Since you left I'm broken babe  
I need you, don't you know?

One of those nights  
Just one of those nights  
Silence surrounds me  
(KEY CHANGE)  
Your memory haunts me  
It's one of those nights  
It's just one of those nights  
If only I had you to love me

On one of those nights

Your memory haunts me  
It's one of those nights  
It's just one of those nights  
If only I had you to love me  
On one of those nights
