

Carolina Blue

Bucky Covington

There's something missing in the air tonight
That old rockingham moon knows just how to find
Here I am a thousand miles away
There ain't nothing like you girl here in LA
Chasing dreams and watching them come true
Everything is coming my way but you
But you

Oh I'm carolina blue and I'm surely missing you
And those smokey mountain eyes when you made everything right
Your voice gets me thru the night
But its breaking my heart just to know you are missing me
Girl thats whats keeping me carolina bue

We always talked about heading out west
Taing our chances leaving everything else
Standing here onthis coast alone
I think about you leaves one way to go
Come tomorrow we wont need a telephone
Dont look for me here cause I'll be gone
Well I'm coming home

Cause I'm carolina blue
And I'm surely missing you and those smokey mountain eyes
When you made everything right
Your voice gets me thru the night
But its breaking my heart just to know you're missing me
Girl thats whats keeping me

Till I'm back in your arms
There's only one thing to do
To hold on till its back
Just me and you

Oh I'm carolina blue
And I'm surely missing you and those
Smoky mountain eyes when you made
Everything right
Your voice gets me thru the night
But its breaking my heart just to know that you're missing me
Girl thats whats keeping me carolina blue
Carolina blue
