

Come Back Baby

Buddy Holly

Come back baby
Baby won't you come back
Come back baby to me
Now I know why all sad hearts cry
Baby baby come to me
Well, I cried all night
Ever since you left me
Nothing has gone right
Poor lonely oh me
I say come back baby
Baby won't you come back
Come back baby to me
Now you know I love you so
Baby baby come to me

When you left me all alone
To sing the blues
I waited by the phone
To get good news
That you would come back baby
Baby won't you come back
Come back baby to me
Now you know I love you so
Baby baby come to me
Oh, come back baby to me
Hmm Hmm Hmm Hmm Hmm
Come back baby to me
Oh baby baby come to me
Come back baby to me
