Little Baby

Buddy Holly

Little baby, baby me Little baby, baby me In my heart you are the one Look around and have your fun Oh woh woh-woh You be my little baby And baby me

Little baby can you see What your love has going to be? Can you see love in my eyes? Love that leaves me full of sighs Oh woh woh-woh You be my little baby And baby me

Little baby, baby me Little baby, baby me Maybe I will baby you With a bunch of love for you Woh woh woh-woh You be my little baby And baby me
