

# Take Your Time

**Buddy Holly**

Take your time - I can wait  
for all the love I know will be mine  
if you take your time

Take your time - though it's late  
heart strings will sing like a string of twine  
if you take your time

Take your time and take mine too  
I have time to spend  
take your time - go with me through  
times 'til all time's end
