

You Are My One Desire

Buddy Holly

You are my one desire
You set my heart on fire
Your eyes, your lips and your smile
They make my life so worthwhile

You'll never know how much I love you
If you will be my own I will be true

You are my one desire
You set my heart on fire
You'll never know how much I love you
If you will be my own I will be true

You are my one desire
You set my heart on fire
