

# All Night Petrol

**Budgie**

Come on baby take me to your heart  
Just take a ride up in my car  
Oh, I'll just refuel before we start  
The day is night before we part  
What a perfect living, what a perfect day

You think you've got no place to go  
And your daddy's kicked you on the road  
You need a lover not a foe  
So you just relax and then unload  
What a perfect living, what a perfect day

So you think you're foolish playing hell  
All night petrol beats you with it's smell  
You take a burning lamp and tell time  
Slumped upon the floor where we once fell  
What a perfect living, what a perfect day

You want me no  
You let me go  
You won't say no
