

## Don't Lay Down and Die

**Budgie**

Lay down, baby don't lay down and die  
Hold on, don't lay down and die for no reason at all  
So long, you've had it bad  
One day soon, you'll laugh aloud  
What you're being so sad  
Is it really so bad?

Lay down, won't you show me a life  
Shake it, blow it away or it cuts like a knife  
Bad times they seem to be yours  
Certain times only get through if you open the door  
Listen to me, then you might see

You've got it wrong, hold out some more  
Build a new hope, don't lay down and die

I said lay down, baby don't lay down and die  
Save it, we're always alone so lift up your eyes  
Stand on your own,  
Be what you are do what is right  
Life is your own,  
Not for too long if you give up the fight  
Listen to me then you might see
