Keeping a Rendezvous

Making me warm under the storm Keeping a rendezvous Making me warm under the storm Keeping a rendezvous

I couldn't stand the rain Without you to keep me dry You wouldn't stand it So we'll meet before you start to fly

I've got a thousand miles to fly But I can make it by the morning light

Making me warm under the storm Keeping a rendezvous Making me warm under the storm Keeping a rendezvous

I haven't seen you girl So long, it seems like years have gone Some things can be so good It happens time and time again

There's nothing now so we can play I'll be there sooner girl than yesterday

I've got a thousand miles to fly But I can make it by the morning light There's nothing new so we can play I'll be there sooner girl than yesterday

Making me warm under the storm Keeping a rendezvous Making me warm under the storm Keeping a rendezvous
