

Picture on a Screen

Budgie

I am unreal.

I am unreal.

Ow! I'm playing in a TV show
but people think I'm real you know
They even write to me I say
It seems to be like contact in the head

Picture on a screen
That's the only thing you've ever seen
Now maybe you would like to talk to me
I'm still a picture on a screen

You're talking at me, never to me
In living colour you can see
The image of your dreams
I will be your fantasy

Picture on a screen
That's the only thing you've ever seen
Now maybe you would like to talk to me
I'm still a picture on a screen

I am unreal.

I am unreal.

You think you know me but you don't
Could forget me but you won't I am the shadow in your eyes
I cannot feel your lies

Picture on a screen
That's the only thing you've ever seen
Now maybe you would like to talk to me
I'm still a picture on a screen
