

# Running from My Soul

**Budgie**

Ooh woman, taste my rock and roll  
Ooh woman, make it hot as coal  
And I'm running  
Running to my very soul

One day woman walking down that street  
I saw my lover she sure looked sweet  
Oh now mean I feel my rock and roll  
And I'm running  
Running to my soul

Ooh woman, taste my rock and roll  
Ooh woman, make it hot as coal  
And I'm running  
Running to my very soul
